Refund Policy
All registration refund request will be reviewed and approved refunds will be processed within 3-5 business days until 31 August, 2015. No refunds will be issued after 31 August, 2015.

Delivery Instruction/Timeframe
Email confirmations will be sent to the registrants’ email address within one business day of completing registration for the Australasian Schizophrenia Conference. If you do not receive a confirmation email with your registration information included, please contact Michelle Tidwell at Parthenon Management Group at mtidwell@parthenonmgmt.com or at 001.615.324.2370.

Privacy Policy
The Australasian Schizophrenia Conference respects your privacy and is committed to protecting it at all times. This online Privacy Policy explains how Australasian Schizophrenia Conference collects, uses and safeguards information on its various websites and apps. We collect information about our users in three ways: directly from the user, from our Web server logs and through cookies and other technologies. We use the information primarily to provide you with a personalized Internet experience that delivers the information, resources, and services that are most relevant and helpful to you. We don't share any of the information you provide with others, unless we say so in this Privacy Policy, or when we believe in good faith that the law requires it.
Changes to the Privacy Policy

As our organization, membership and benefits change from time to time, we expect this Privacy Policy to change as well. We reserve the right to amend the Policy at any time, for any reason, and will signal a change by revising the "Last updated" date at the bottom of this page.

What information we collect and how we use it

Information we collect -- When you browse our site, for example, and do not interact with the site for any online service or product from Australasian Schizophrenia Conference, you browse anonymously. Information that identifies you personally--such as your name, address, phone number and email address--is not collected as you browse.

When you create an account to become a registered user on our site, or choose to interact with us in other ways, such as subscribing to Australasian Schizophrenia Conference publications, purchasing an Australasian Schizophrenia Conference product, participating in online surveys, submitting questions or comments or requesting information or materials, we will collect certain personal information from you. The type will vary but may include name, address, phone number, birth date, billing and delivery information, email address, credit card information and other demographic information. We do not collect Social Security numbers via any Australasian Schizophrenia Conference website. The product or service that you seek will determine the personal information collected.

How we use personal information -- Once collected, we may use your personal information for the following purposes:

- Register you for programs and services you have requested
- Process, fulfill and follow up on your orders or membership application
- Provide access to journal content
- Answer your emails or on-line requests
- Send information you request
- Send and process surveys
- Ensure Australasian Schizophrenia Conference sites are relevant to your needs
- Deliver Australasian Schizophrenia Conference services such as newsletters, meetings or events
- Recommend content that suits you
- Alert you when fresh content is posted or released
- Notify you about new products/services, special offers, upgrades and other related information from Australasian Schizophrenia Conference and approved third parties

You can manage your account, limit alerts or opt-out of some or all future communications. All e-mail communications contain an “unsubscribe” option in case you want to discontinue the
communication at any time. Contact us via the phone number or contact form on our site at any
time to:

- See what data we have about you, if any;
- Change/correct any data we have about you;
- Ask us to delete any data we have about you; and/or
- Opt out of some or all future communications from us.

When we hire vendors to deliver emails to you on our behalf, they are under agreement and
limited from using your email address and other personal information for any other purpose.

These email messages may contain "clear GIFs" or "Web beacons" to measure the offer's
effectiveness so we know how to serve you better. We do not collect information that identifies
you personally through "clear GIFs" or "Web beacons." You may refuse or remove the
placement of these and other cookies by selecting the appropriate settings on your web
browser.

**How to opt out of email** -- To opt out of future emails and newsletters, go to our website or
click the "unsubscribe" link at the bottom of any email or other content sent from/by
Australasian Schizophrenia Conference.

**With whom we may share information** -- Australasian Schizophrenia Conference may share
personal information (except your email address) with our business partners in order to provide
them an opportunity to offer products or services that may be of interest to you. Australasian
Schizophrenia Conference also occasionally hires other companies to provide limited services on
our behalf including, but not limited to, processing credit card transactions, packaging, mailing
and delivering purchases, answering customer questions about products or services, consulting
services, data modeling, printing, sending postal mail and processing membership and event
registration. We will only provide those companies the information they need to deliver the
service. They are prohibited from using that information for any other purpose. Except as
described in this section, third parties may not collect personally identifiable information about
your online activities over time or across different Web sites when you use our web sites.

Australasian Schizophrenia Conference may disclose your personal information to a third party if
(1) reasonably necessary to perform a service or deliver a product or publication; (2) authorized
by you; (3) permitted under this Privacy Policy; (4) required by statue or regulation; or (5) in the
good-faith belief that such action is necessary to: (a) conform to legal requirements or comply
with legal process served on Australasian Schizophrenia Conference; (b) protect and defend the
rights or property of Australasian Schizophrenia Conference; (c) protect the personal safety of
Australasian Schizophrenia Conference personnel or members of the public in urgent
circumstances; or (d) enforce Australasian Schizophrenia Conference’s Privacy Policy or Terms of
Use.
Tracking activity on our website -- We track how our sites are used by both anonymous visitors and registered users who interact with the site. One way we track is by using "cookies." A cookie is a small file or string of text on the site user's computer that is used to aid Web navigation. Two types of cookies are commonly used. A session cookie is created by a website when that website is accessed; that type of cookie is automatically deleted by closing the Web browser. A persistent cookie is a cookie that is stored on the hard drive of the user’s computer for a period of time chosen by the website that set the cookie, usually for a number of years, unless the user deletes it manually. This policy distinguishes between short-lived cookies and long-lasting cookies. Short-lived cookies include all session cookies and those persistent cookies that are set to be stored for no more than one week. Australasian Schizophrenia Conference-related websites may at times require users to accept short-lived cookies in order for the websites to function properly. Long-lasting cookies may be used on the site to track visitor practices to help determine which site features and services are most important and guide editorial direction. Other long-lasting cookies may make it possible for the user to access the site without requiring entry of a user name or password, allow the user to view different restricted areas of the site without reregistering, allow the user to personalize the site for future use and provide other features and benefits. Users who do not desire the functionality created by the long-lasting cookie can disable the long-lasting cookie function, either by indicating when asked that they do not wish to have a long-lasting cookie created or by disabling the long-lasting cookie function on their Web browser. Individuals can opt out of long-lasting cookie functions at any time.

Cookies are required for some sections of the website. Cookies are essential for site administration and security. Another way we track site activity is by using transparent electronic images called "clear GIFs," "Web bugs," or "Web beacons" on Web pages. These images count the number of users who visit that page from specific banner ads outside our site or through email links. A similar image, sometimes called a "spotlight tag," is used on Web pages where transactions take place. The spotlight tag collects numeric information, such as the dollar amount of an online purchase, to help us understand usage of the site. We do not use any of these electronic images to collect personally identifiable information.

Third party tracking on our websites – Third parties do not track or collect any personal information on individual visitors at our sites, except as set out in this Privacy Policy. Ad networks and data analytics firms track and analyze traffic on Australasian Schizophrenia Conference sites, in part, to determine advertising effectiveness, browser types and usage trends, and to present targeted ads based on anonymous information collected through tracking. This anonymous aggregate data on visitors and their use of our content provides business intelligence to better serve visitors, improve our content and track trends or contribute to improving health outcomes. If you open an ad, you leave our sites and become subject to the terms and practices of that separate website, which may have different rules about tracking and data usage. Activation of cookie blocking or Do Not Track settings in your browser, or other mechanisms that block cookies or other tracking technologies, will not affect the collection or use of personal information as outlined elsewhere in this Privacy Policy.

Children under 13 -- We do not knowingly solicit data online from or market online to children under the age of 13.
**Information security** -- Australasian Schizophrenia Conference implements security measures to protect against unauthorized access to or unauthorized alteration, disclosure or destruction of data. We restrict access to personal information to our employees and Australasian Schizophrenia Conference’s business partners who may need to know that information in order to operate, develop or improve our services. These individuals are bound by confidentiality obligations and may be subject to discipline, including termination and criminal prosecution, if they fail to meet these obligations.

**How we safeguard information**

**Site security features**

**SSL technology and how you benefit from it** -- Australasian Schizophrenia Conference realizes the importance of security, so we've taken a number of steps to enhance the protection of personal information sent to or from Australasian Schizophrenia Conference over the Internet. First, we require that a "secure session" be established, using Secure Socket Layer (SSL) technology. This is done any time you supply or access information in one of our secure online areas.

SSL technology creates a private conversation that only your computer and Australasian Schizophrenia Conference systems can understand. The SSL technology encodes information as it is being sent over the Internet between your computer and Australasian Schizophrenia Conference systems, helping to ensure that the transmitted information remains confidential.

**User ID and password** -- Many areas of the site require the use of a user ID and password as an additional security measure that helps protect your information. This allows Australasian Schizophrenia Conference to verify who you are, thereby allowing you access to your account information and preventing unauthorized access. When you have finished using a secure area of Australasian Schizophrenia Conference website, make sure you always click on the "Log Out" link which appears on every secure page. When you click on the "Log Out" link, you will be given the option to end your secure session. No further secure transactions can be conducted without re-entering your user ID and password. You should be aware that browser software often "caches" a page as you look at it, meaning that some pages are saved in your computer's temporary memory. Therefore, you may find that clicking on your "Back" button shows you a saved version of a previously viewed page. Caching in no way affects the security of your confidential user ID or password.

**No guarantee** -- Unfortunately, no data transmission over the Internet can be guaranteed to be 100% secure. Accordingly, and despite our efforts, Australasian Schizophrenia Conference cannot guarantee or warrant the security of any information you transmit to us, or to or from our online products or services. Email messages sent to or from a website may not be secure. Confidential information should not be sent by e-mail. Site visitors sending e-mail accept the risk that a third party may intercept e-mail messages.
